

Element DALI DT8 Dimmer CCT DUAL-White

Product information "Element DALI DT8 Dimmer CCT DUAL-White"

DALI DT8 dimmer for controlling dual white LED strips or light sources

4-channel lighting control device constant voltage with Dali interface with 12V - 36V DC input voltage. 2 x 2 channel dimmer output. Suitable for two-color LED light sources. The system of the Litegear Element series is designed for control via DALI bus / protocol (Digital Addressable Lighting Interface). An operating device with a DALI interface is controlled via the assigned DALI short address using the DT-8 protocol. An additional LED power supply 12-36V is required. Manual or automatic assignment of the Dali address.

Technical specifications:

- Maximum output power per channel: 4 Ch.5A (240-720 total) (60-180W / channel)
- Power supply: 12-36V DC.

IEC62386-209: 2011

Technical Details:

Switching Cycles:	>30.000
Ambient Temperature (TA):	-20°C - 50°C
Housing Material:	plastic
Housing Color	white
Zones:	2
Channels:	4
Dimming:	0-100%
Dimensions	170x54x28 mm
Net Weight:	197 g
Warranty	2 years
